MYSTIQUE

Creativity is what gives us wings to explore the hidden virtues in ourselves. It is what empowers our life with beautiful experiences that etch themselves onto our hearts as memories. Memories that eventually shape us into better humans.

'Euphoria', the cultural club of MITE, is a huge community of creative individuals here to nurture their hidden skills and talents with a superior motive of creating art. Here at **'Euphoria'**, we believe in the stories that make us humans, stories that give us wings of perception to view the world in a different yet a beautiful way, stories that keep our feet on the ground while our minds are in the stars and most importantly, we believe in the crazy dream of making the world a better place through art.

We believe in the artistic inspiration that each of our clubs represent. We believe in the humans behind the unraveling of magic through their respective potions. We believe in the confidence of an orator, the serenity of each musical note, the grace of a dancer, the captivating resonance behind each metaphor, the theartic portrayal of the world, the fascinating stories depicted by colours, the powerful RGBs behind each digital art and the enticing magic behind each pixel. We believe in giving a second chance to humanity through art.
